Experience exclusiveness

Rahat Heights offers a perfect life-style to those who seek a tasteful blend of comfort and modernity. Located in the centre of the metropolis, proximity to the beautiful Margalla Hills makes it the best choice for those who wish to experience the calmness of nature while conducting their daily businesses.

Faisal Margalla City (FMC) B-17 is located on Main G.T. Road and the other side is Motorway M-2. Famous Sangjani Tool Plaza is also located on G.T. Road is approximate 2Km away from B-17. After the completion of Margalla Avenue, It is Just 10 minute drive from central Islamabad like Sector E-II and F-10.

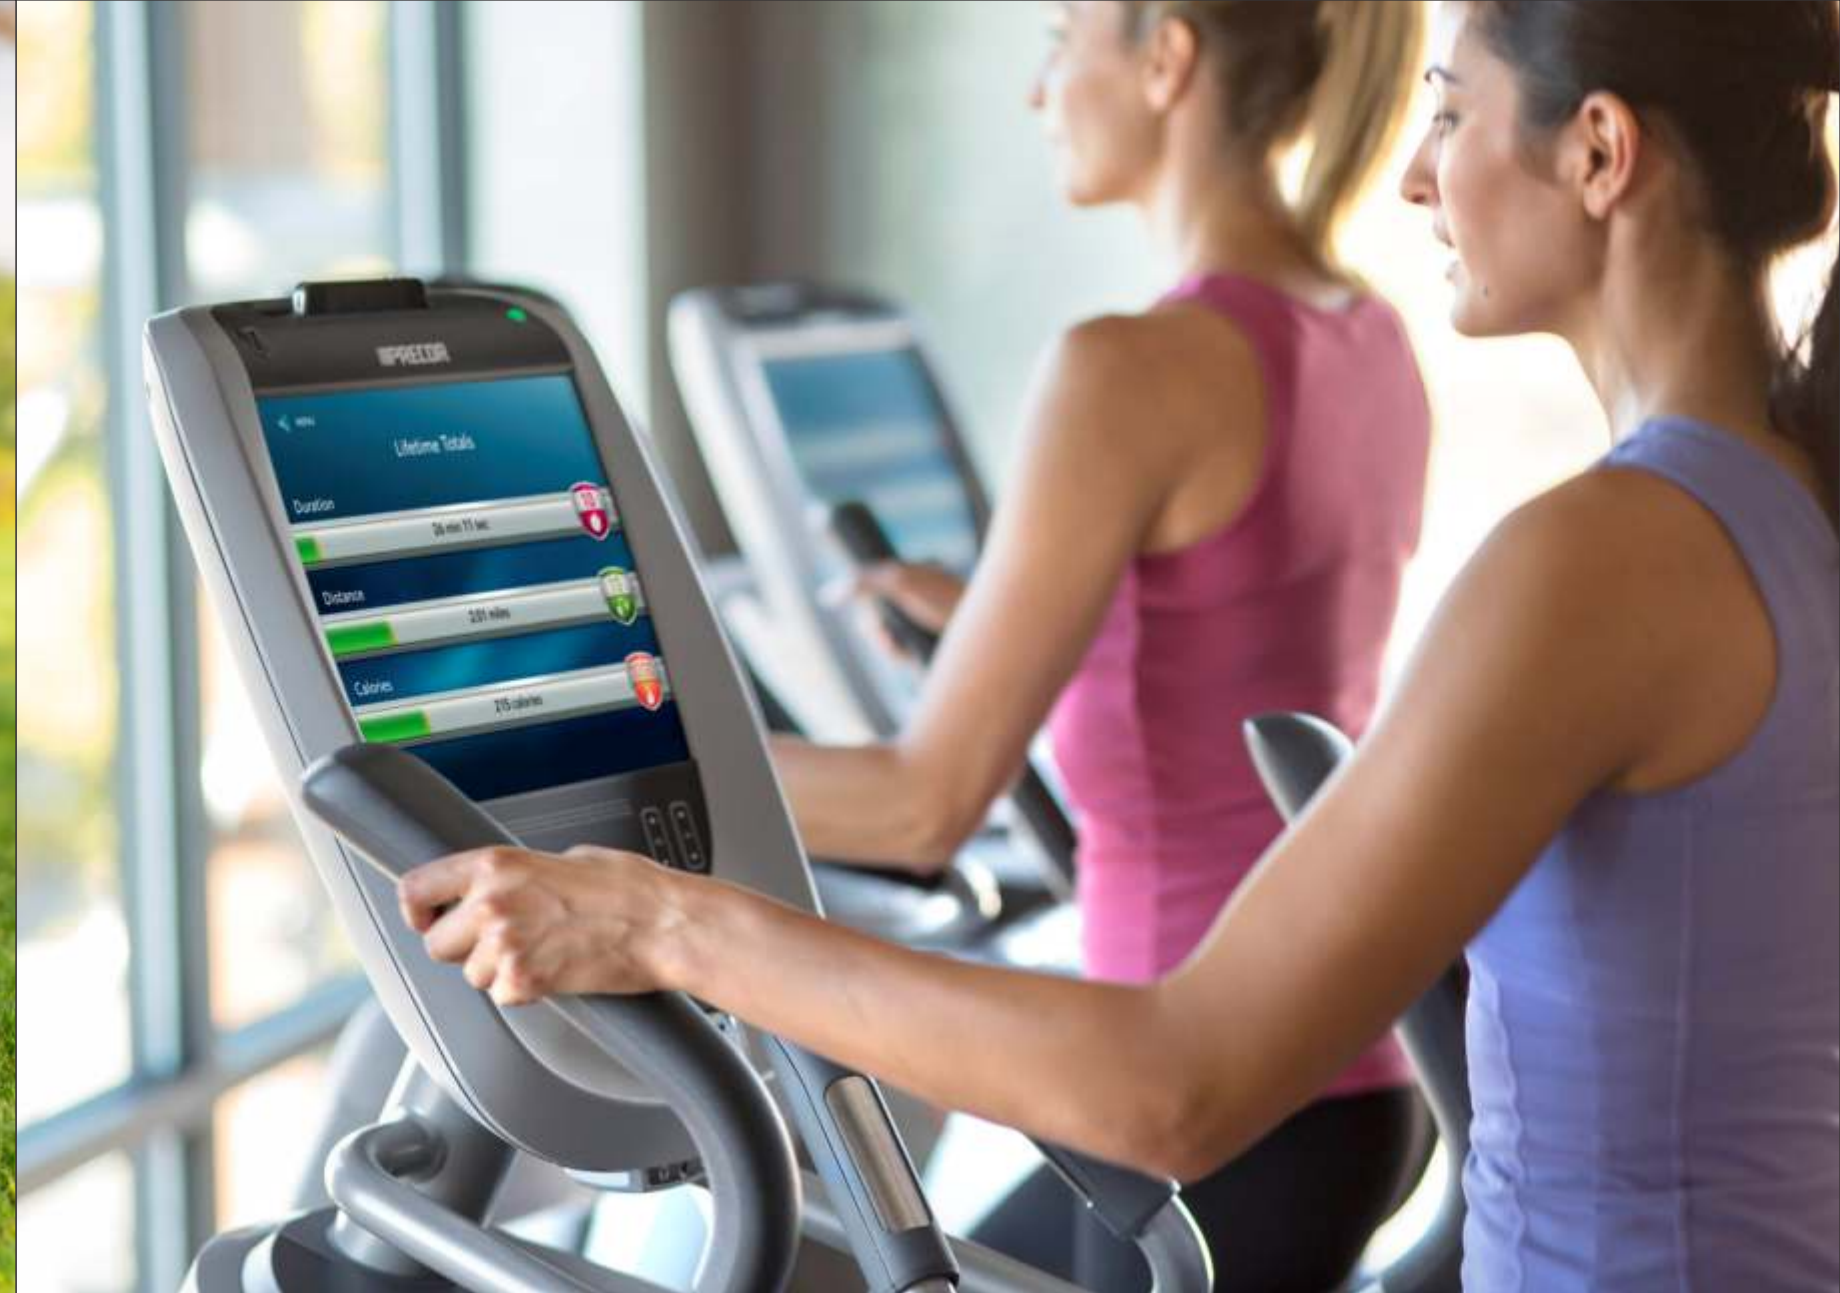

Location

Rahat Heights retains a very strategic position in the city due to its proximity to the New Islamabad International Airport and conspicuous position next to main G.T. Road that gushes toward the Margalla Hills, the famous Ternal Interchange & Sangjani Tool Plaza, In addition to this, the Margalla Road is also connecting to the B-17 near future which is again another lucrative feature of the project. Its strategic position can also be attributed to the fact that it provides easy access to commercial markets, business offices, schools, hospitals, parks, playing grounds and wide roads network.

La Residentia

Each residence at Rahat Heights manifests exceptional sophistication, be it the space, interiors, lighting, or accessories. Our varying floor plans offer flexible configuration of apartments to satisfy your whims and fancies.

Exquisite Elegance

With meticulous attention to detail, these beautiful apartments have been designed to an exceptional specification. The generously proportioned rooms with superb natural light have been thoughtfully arranged to create the most elegant and inviting living spaces.

Kitchen

Kitchen design has reached a new level of integration. The quiet incorporation of the kitchen into the home's primary living and entertaining rooms provides homeowners with far more flexibility in their lifestyles. Integrated and concealed appliances allow the kitchen to enhance rather than intrude into other spaces.
